About Me

I am a full-stack developer and new resident of Israel with English as his native language. Strategic thinking and analytical skills, coupled with excellent interpersonal skills, have made me highly efficient in a team. I am seeking an entry-level development position in the high tech industry. Recently, I effectively created a MedTech multiplatform app prototype using a Python backend and a React.js frontend.

Technical Experience

Covid Acute MX – Source Code : 

A MedTech multiplatform app prototype using a Python backend and a React.js frontend.

- Created app prototype with React.js
- Worked alongside UX designer to render the application's clientside view.
- Integrated Django Rest Framework to access app data.

TeacherTimeShare – Source Code : 

Full-stack web-app Made in Django

- Complete authentication system with multiple User Types
- Fully functioning 'Blog' users can post, edit, delete their posts, and comment on posts from different users.
- Integrated a web RTC client to create a virtual classroom

Pokemon Trading – Source Code : 

A Full-stack web-app made in Django that fetches data from an API.

- Complete authentication system utilizes Postgres to store user media.
- Renders data from API's to Bootstrap cards sorted by type and attribute

Professional Experience

2020 – 2020

Coronavirus Acute Management App

FullStack Developer – Tel Aviv, Israel

- Completed a multiplatform app prototype to aid the management of patients showing signs of COVID-19.
- Created the application end to end using Python, with frontend in React framework.
- Worked alongside UX designer to render the application's clientside view.

2015 – 2019

NYC Department of Education

Instructor / Tech Lead – Brooklyn, New York

- Taught small groups of students programming via an hour of code workshops and assisted with the understanding and applying skills.
- I have provided therapeutic interventions for children with developmental and emotional disabilities.

2011 – 2016

Walgreens. Co

Sales/ Customer Service – Brooklyn, New York

- Determined the most effective resolution to customer issues and maintained customer accounts.
- Expertise in building professional relationships with customers to sell the company's goods.
- Independently performed target market research, which proved pivotal in introducing a successful chain of photo products.
